SPECIAL SKILLS

-Archery: intermediate level. Incidentally, he can shoot the lights on/off, flip ceiling fan switches & open the screen door with his bow & arrow. He is self taught but range-tested at Intermediate Level.

-Eskrima: Level 1 & learning fast- This is the same martial arts form that is primarily used by The Arrow. Kenzen has mastered 2 disarms, 2 strikes, butterfly strike & the 6 count. Retaining knowledge easily & learning quickly.

-Animal Lover: 2 Rhodesian Ridgebacks & 1 Wolf Hybrid, he considers them siblings & acted alone in training one of them to sniff out his rogue arrows in rare instance it lands in the brush.

-Parkour Kid: LOVES fitness, very strong, trains every day (on a backyard parkour course he helped design & drill together) to become the strongest kid alive. See instagram for proof: *kenzenwolf*

-Guitar: Beginner level, seems to have a gift for playing by ear, learning very fast!

OTHER:

He is a problem solver by nature, & he is often his own hero. He'd build his own props on set if he had to rather than sit around wasting time on a broken or missing prop.

While his preferred disposition is of an athletic nature, he is focused when focus is called for.

Adrenaline Junkie- He doesn't tire easily. He can "workout" on Muscle Beach for 6 straight hours any day of the week.

Excellent Jim Carrey impressions
